Beltsville, MD 20705

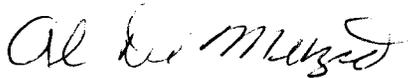

Dear Ms. Hutchinson:

The purpose of this letter is to express Mona Electric's sincere appreciation for the excellent work your crews have done at the HGS/LSM site on Belward Drive in Rockville.

We would like to especially thank the crew who worked here yesterday for going above and beyond the call of duty. As you probably know, the second carrier was delayed at the Texas factory for several hours and therefore did not arrive until 5:00 p.m. Despite putting in a long day, and being scheduled to travel to Delaware the following day (Thursday), the team agreed to stay and set the second gear delivery. Otherwise, we would have had to wait for next Monday (May 24) and be further behind. The crews' effort jumped us ahead by at least a week.

I have listed below the individuals who worked at the site. Once again, our sincere thanks for a job well done.

Sincerely,

Al DiMuzio
Superintendent, Mona Electric Construction

: Russ Barrett
Michael A. Harrod
Charles Rothenbecker, Jr.
Edell Taylor
William Sandlin
Timothy Thompson

P.S. I have enclosed photos of both crews
